The Company

Message from the Managing Director

OVEL was built on a simple belief: clients need service providers who can execute reliably, communicate clearly and solve problems quickly.

Over the years, we have supported organisations across procurement, construction, maintenance, logistics and technical manpower services. Our growth has been driven by relationships, repeat engagements and a commitment to doing what we say we will do.

As we look ahead, our focus is on becoming one of the most dependable companies in our sector.

We continue to invest in people, systems, partnerships and operational capability that allow us to support increasingly complex projects while maintaining the responsiveness that our clients value.

We welcome opportunities to support organisations with engineering, procurement and project delivery in Nigeria.

Charles Ayedero

MD/ Chief Executive

Vision

To build a commercially sustainable engineering and project services company that consistently delivers measurable results for clients while creating long-term value for employees, partners and shareholders.

Mission

To help clients execute projects efficiently by combining technical expertise, disciplined procurement, reliable project delivery and strong local execution capability.

Core Values

Respond Quickly

Speed of communication and decision-making is critical to project success.

Solve Problems Early

We identify risks before they become costly delays.

Protect People and Assets

Every project should be executed without harm to people, equipment or the environment.

Continuously Improve

Each project should leave us more capable than the one before.

Company Overview

Integrated Engineering, Procurement, Logistics & Project Support

Ocean Vision Energy Limited (OVEL) is a Nigerian-owned engineering and industrial services company supporting clients across the energy, marine, industrial and infrastructure sectors.

We provide procurement and supply-chain solutions, engineering support, construction and installation services, marine and inland logistics, maintenance and technical manpower to support project execution and operational requirements.

With a practical understanding of Nigeria's operating environment, we focus on responsive service, effective coordination, reliable delivery and long-term client relationships.

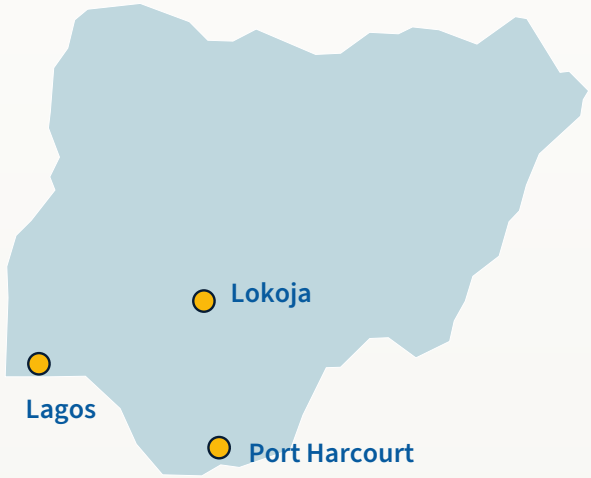

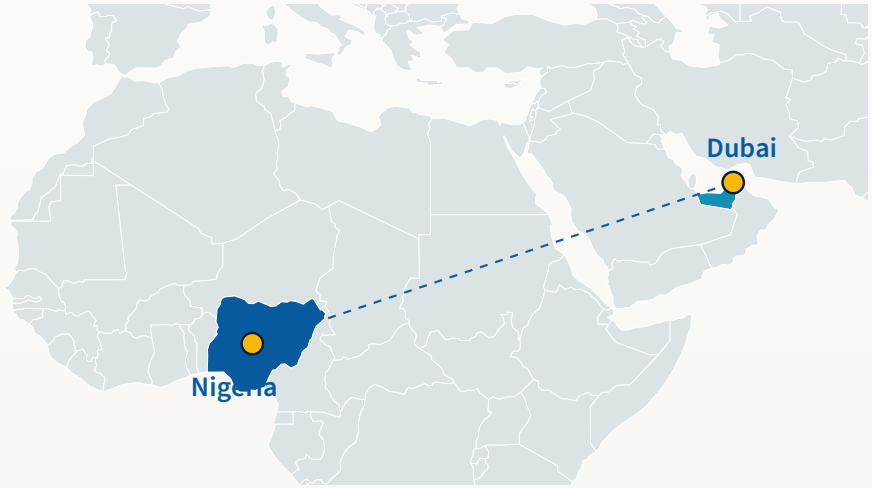

Our Core Capabilities

- **Engineering & Technical Support**
- **Procurement & Supply Chain Management**
- **Construction & Installation**
- **Marine & Inland Logistics**
- **Maintenance & Field Support**
- **Technical Manpower Services**
- **Dredging & Equipment Leasing**

Locations

LAGOS · PORT HARCOURT · LOKOJA · DUBAI

New GRA, Port Harcourt,
Rivers State.

Lokoja

1, Michael Omonogun Close,
Off Tunde Ogbeha Road,
GRA, Lokoja, Kogi State.

Dubai

2nd Floor, Building 4, Bay Square,
Business Bay, Dubai, UAE.

Our Services

- Engineering
- Procurement & Supply Chain Management
- Construction & Installation
- Marine & Inland Logistics
- Field Services
- Manpower Services

Engineering

ENGINEERING & TECHNICAL SUPPORT

OVEL provides engineering support and technical coordination for industrial facilities, equipment installations, and project execution across the energy and infrastructure sectors.

- Technical Specifications & Drawing Review
- Mechanical & Piping Support
- Equipment Selection & Technical Evaluation
- Testing & Commissioning Coordination

Procurement & Supply Chain Management

BUSINESS VERTICAL

Local and International sourcing of industrial materials, with supply-chain coordination to support project delivery.

- Local and International sourcing
- Material supply-chain solutions
- Vendor management and coordination

Construction & Installation

BUSINESS VERTICAL

Construction, fabrication and installation services for industrial and project requirements.

- Civil construction
- Structural fabrication
- Mechanical installation
- Electrical and instrumentation works
- Pipeline construction

Marine & Inland Logistics

BUSINESS VERTICAL

Support for marine and inland project requirements, including vessels, cargo, freight and equipment.

- Marine vessel support
- Inland logistics
- Cargo and freight handling
- Dredging and equipment leasing

Field Services

BUSINESS VERTICAL

Maintenance and operational support for facilities and operating assets.

- Facility maintenance
- Asset integrity management
- Operations support

Manpower Services

BUSINESS VERTICAL

Technical manpower services and personnel support for project execution and operations.

- Technical manpower services
- Project and field support
- Operations support

Why Clients Work with OVEL

Local Understanding

Practical experience within the regulatory, logistical and commercial realities of the Niger Delta and broader Nigerian market.

Execution Focus

Timely procurement, project coordination and field execution help minimise delays and maintain project continuity.

Long-Term Relationships

We approach each engagement as the start of a long-term partnership.

Commercial Flexibility

Our structure allows us to adapt quickly to changing client requirements and project conditions.

Project Delivery

01 **Engineering & Planning**

Coordinate the technical approach and project engineering.

02 **Procurement & Vendor Management**

Coordinate materials, procurement and vendor interfaces.

03 **Construction & Installation**

Execute civil, structural, mechanical and installation activities.

04 **Testing & Commissioning**

Support inspection, testing and commissioning requirements.

05 **Operations Support**

Provide maintenance, personnel and operational support.

Project coordination and field execution

HSE & Quality Management

Safety is integrated into our operations. Our objectives include zero fatalities, zero lost-time injuries, environmental protection and regulatory compliance.

HSEQ focus

- Risk assessments
- Toolbox meetings
- Incident prevention
- Continuous improvement
- Workforce competency development

Quality management

Quality assurance and quality control support client specifications and the requirements of ISO 9001:2015.

Certifications & Statutory Compliance

ISO 9001:2015

NUPRC

NOGIC JQS

NIPEX

NCDMB

Experience & Track Record

Selected client scopes

Client	Project scope
Fugomarine	Towing of a 5,000-tonne barge
Truehood	Mooring services
Pivot GIS	Procurement of insulation materials and pipes
Mevlon Nig. Ltd.	Facility management services
Bourbon Interoil Nigeria Ltd.	Building construction
Julius Berger	Supply of sand
TECON	Diving Contract Delivered under a Sublet

Surge Vessel Installation

PROJECT EXPERIENCE

- Installation of surge vessel and scrubber
- Installation of prefabricated piping spools
- Associated structural works and pipe supports
- Painting and touch-up works
- Design and execution of a critical lifting plan
- Inspections and pre-commissioning

Our Direction

Growth Strategy

Expand EPC Operations

Increase participation in large-scale projects.

Strengthen Procurement Services

Become a preferred supply-chain partner.

Build Strategic Alliances

Partner with international firms.

Invest in Technology

Improve operational efficiency.

Regional Expansion

Expand operations across West Africa.

Industry engagement

LOCAL CONTENT & SUSTAINABLE DEVELOPMENT

OVEL is committed to strengthening Nigerian participation in the energy sector through local workforce development, supplier participation, skills transfer, and responsible business practices.
