HEALTH, SAFETY & ENVIRONMENT

HSE statement

Protecting people, assets and the environment is a core value of Ocean Vision Energy Limited (OVEL). Our approach to project support combines practical execution with attention to the conditions in which work is carried out.

Our objectives

Our HSE objectives include zero fatalities, zero lost-time injuries, environmental protection and regulatory compliance. These are goals that guide our work.

Risk awareness and communication

Risk assessments and toolbox meetings are central to the HSE focus set out in our corporate profile. Understanding the work and discussing its risks help connect planning with responsible execution.

Competence and incident prevention

Workforce competency development and incident prevention support our engineering, construction, logistics, maintenance and manpower activities.

Environmental responsibility

We seek to protect the environment while delivering project and operational support. Environmental responsibility also forms part of our local-content and sustainable-development priorities.

Continuous improvement

We aim to strengthen our capability through each assignment. Learning and clear communication support improvements in how work is planned and delivered.

This statement summarises the HSE priorities in the OceanVision corporate profile. Task-specific risk assessments, controls and applicable site procedures govern individual work activities.
